27) the following items may perhaps be deleted.

Flag O.

Proposed.

Collection of land Revenue and other amounts due to Madras Govt and vice versa.

Smuggling and Movement of Smugglers.

With officer in charge of Excise Bureau.

Perhaps this may be deleted. The designation of the proposed officer makes it clear. As the other excise subjects, though the subjects are practically the same. in the proposed list there is scope for even junior officers like Dt Excise officers corresponding with officers of similar status in Madras. Considering that point. the proposed list (of subjects and officers) is more detailed.

Police

The subjects are the same with some additions and in this case also in the proposed list. The Officers are:- D.G of Police, Officers of and above the rank of Deputy or A.S.Ps.

P.W.D There are a no of additional subjects in the proposed list. In the existing list it is only stated that minor cases of water disputes between Mysore Ryots and British Ryots likely to lead to a breach of peace direct correspondence is allowed with Officers in British India.

30) The subjects in the proposed list are more exhaustive, though direct correspondence exists on some of the subjects but the additional advantage in the proposed list is the designation of the Officer or Officers is more precise than the existing one when in certain cases it is only mentioned as British Officers. In view of the above, the subjects that can be conveniently deleted are rather few, since in those subjects, in the proposed list, there is scope for junior officers also to correspond direct on the same subjects. Further the subjects are of a non-controversial character. In view of the above it is for orders whether the list (flag O) may be cancelled or it is with Flag IV and the approved draft

DRAFT ORDER.

As some misapprehension seems to exist as to the subjects on which Heads of Departments and other officers of the Madras Government may correspond direct with the officials of Indian States or the political officers attached to them, the following revised instructions are issued in supersession of all previous orders on the subject:-

(i) The Heads of Departments and the Officers under them specified in column 2 of the Annexure to this order may correspond direct with the officials of the Hyderabad State and the States in the Mysore and Madras States Agencies, or with the political officers in political relations with such States, as the case may be on the subjects shown in column 3(a) and 3(b) thereof.

(ii) In these matters no officer should initiate or continue correspondence with an official of an Indian State in terms which may involve a commitment of the Provincial Government or of His Excellency the Crown Representative. Before any reference is made to such an official which has the effect of conceding to the State a right to be consulted on matters which are not governed by previously existing conventions or instructions, the officer concerned will obtain the orders of the Provincial Government through the proper channel. Whenever any matter reaches a controversial stage or is likely to do so, it should be reported to the Provincial Government who will if they see fit take up the matter with the Political Officer.

(iii) No local body should correspond direct with any Indian

State except through the Provincial Government.

DRAFT ORDER.

As some misapprehension seems to exist as to the subjects on which Heads of Departments and other officers of the Madras Government may correspond direct with the officials of Indian States or the Political officers attached to them, the following revised instructions are issued in supercession of all previous orders on the subject:-

(i) The Heads of Departments and Officers under them specified in column 2 of the Annexure to this order may correspond direct with the officials of the Hyderabad State and the States in the Mysore and Madras States Agencies, or with the political officers in political relations with such States, as the case may be on the subjects shown in column 3(a) and 3(b) thereof.

(ii) In these matters no officer should initiate or continue correspondence with an official of an Indian State in terms which may involve a commitment of the Provincial Government or of His Excellency the Crown Representative. Before any reference is made to such an official which has the effect of conceding to the State a right to be consulted on matters which are not governed by previously existing conventions or instructions, the officer concerned will obtain the orders of the Provincial Government through the proper channel. Whenever any matter reaches a controversial stage or is likely to do so, it should be reported to the Provincial Government who will if they see fit take up the matter with the Political Officer.

(iii) No local body should correspond direct with any Indian State except through the Provincial Government.

3. All Heads of Departments are requested to take steps to make the above instructions generally known and to ensure their strict observance.

(10) The Surgeon General, Director of Medical Institutes, Trichy, and the Principal, Indian Medical School may be proposed by the Madras Government be requested to correspond with the Senior Surgeon on the several subjects detailed in the statement annexed to the Madras Government Order. It would be desirable to permit direct correspondence between the Surgeon General of Madras and the Senior Surgeon to the Government of Mysore for exchange of information relating to departmental matters and in connection with the special training of Officers of either Governments.

(11) In this connection, I may note as per Rule 12 of the Mysore Medical Code, the Senior Surgeon is authorised to correspond direct with the Heads of Medical Administrations in British India for the exchange of information relating to departmental matters and in connection with the special training of officers. The adoption of a similar procedure in Madras would be very useful inasmuch as the term "Exchange of information relating to departmental matters" is very comprehensive and would facilitate obtaining information in regard to the several routine administrative details such as

1. rate of fees charged in the Government Hospitals,
2. Fees for operations,
3. The grades of pay pertaining to the several Officers and subordinates and
4. Conditions on which Post Graduate studies could be arranged etc.

If, however, definite points on which correspondence is to be carried on should be enumerated, I would request that the following be added as Clause under item 3 (a) of the statement.-

The S.S. is agreeable to the proposal of Madras Govt to empower the Surgeon general to correspond direct in certain matters. This may perhaps be approved.

15) S.S. is, under Rule 12 of Medical Code is authorised to correspond directly with heads of Medical administrations in India –

(i) for exchange of information relating to departmental matters

(ii) and in connection with training of departmental officers.

It is perhaps desirable to continue this as suggested by S.S. If this is not considered so, the S.S. suggests the adding of two clauses (c) and (d) regarding scales of fees and details of post graduate courses

ORDER (No.).

As some misapprehension seems to exist as to the subjects on which Heads of Departments and other officers of the Madras Government may correspond direct with the officials of Indian States or the political officers attached to them, the following revised instructions are issued in supersession of all previous orders on the subject:-

(i) The Heads of Departments and the officers under them specified in column 2 of the Annexure to the order may correspond direct with the officials of the Madras and the States in the Agency and Madras States Agencies, or with the political officers in political relations with such States, as the case may be on the subjects shown in column 3(a) and 3(b) thereof.

(ii) In these matters no officer should initiate or continue correspondence with an official of an Indian State in terms which may involve a commitment of the Provincial Government or of His Excellency the Crown Representative. Before any reference is made to such an official which has the effect of conceding to the State a right to be consulted on matters which are not governed by previously existing conventions or instructions, the officer concerned will obtain the orders of the Provincial Government through the proper channel. Whenever any matter reaches a controversial stage or is likely to do so, it should be reported to the Provincial

4

Government who will if they see fit take up the matter with the Political Officer.

(iii) No local body should correspond direct with any Indian State except through the Provincial Government.

3. All Heads of Departments are requested to take steps to make the above instructions generally known and to ensure their strict observance.
